

## Employment

Finding a job can be difficult, particularly if you have little or no experience on how to apply for jobs or know what kind of job would suit you.

We can help you to apply for jobs, write your CV & cover letter and give tips on interview techniques as well as put you in touch with our core recruitment partners who can help you find the right job for you. We aim to work with you to realise your true potential and ensure you are best matched in a position that is suited to you.

Lack of experience or want to improve your skill set? We can help identify opportunities for you to gain internships, voluntary training and work experience so you can get a taster of different sectors or industries before committing to a role.

Have you considered working in the public sector? Would you like to work with communities and charities? Perhaps you are better suited to the Private Sector? Or maybe you are considering starting your own business, there are no limits to what you can do.

Whether you are looking for a progressive career, part/full time job or simply wanting to work at weekends, our experienced advisors can help point you in the right direction.

We are not a recruitment agency or broker, but we have accumulated years of experience to provide you with support and guidance throughout this process.
